TUESDAY, MARCH 28, 1905.

AT LAST William Jennings Bryan has been elected to an office. Just a few days ago he was elected President of the Nebraska Democratic Editorial Association. He serves without pay.

KANSAS is a prohibition state and the people there do not propose to be inconsistent in christening the new battle ship, "Kansas." Instead of breaking the traditional bottle of wine in the ceremony coal oil will be used and we presume it will be poured from a can.

THE monument to be erected to the memory of Indiana's War Governor should be in keeping with his great service to the state and to the country. When completed it should be a credit to the state. If the money appropriated by the Legislature is not sufficient in amount to build such a monument as should be built, the fund should be added to by private subscription as suggested by ex-Governor Durbin.

AN AWFUL fuss is being made over the acceptance of that \$100,000 that John D. Rockefeller offers for missionary work. Some are arguing that since Rockefeller is the head of the Standard Oil trust his money can not be used for a righteous cause and as for them they propose to boycott Mr. John D. when it comes to passing the hat for a collection for missions. Wonder where these people get the coal oil and gasoline they use.

SECRETARY Taft has written a letter concerning the policy of the administration toward the Philippines in which he uses the following words: "The policy of the administration is the indefinite retention of the Philippine Islands for the purpose of developing the prosperity and self-governing capacity of the Filipino people. The policy rests on the conviction that the people are not now capable of self-government and will not be for a long time, certainly not for a generation, and probably not for a longer time than that, and that, until they are ready for self-government, it would be a violation of trust for the United States to abandon the islands." It seems to us that this is a position that is absolutely secure against possible assaults.

RAILROAD RUMBLINGS

J. A. Benell, of the Erie, was here today on business with M. A. St. John. Master Mechanic Frank J. Smith, of Washington, was in the city last night.

Bob claims to have done some detective work for the company for which he was promised \$200. Judgment was rendered by default, the company failing to put in an appearance.—Bedford Democrat.

DIED.

CROUCHER.—Mrs. James Croucher died at her home on East Laurel St. 6:30 Tuesday morning of tuberculosis. Her sickness had been of long duration, but at no time had she been confined to her bed. She was starting to get up this morning when she suddenly died. Her husband is an employee of M. A. St. John. Her father, Joseph Humphreys, resides at Columbus. Two sisters, came from Medora Tuesday on account of her death. Funeral will take place sometime Wednesday.

Rev. Z. F. Gorbet and family went out to Gorbet's Chapel Sunday to attend the meeting which has been in progress there for a week. There have been eight additions to the church and four were baptized Sunday. Rev. Gorbet preached Sunday while there.

By The Tonic Route.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure headache, constipation, biliousness, etc. Early Risers are small, easy to take and easy to eat a safe pill. Mack Hamilton, hotel clerk at Valley City, N. D., says: "Two bottles cured me of chronic constipation." Sold by A. J. Pellens and W. F. Peter Drug.

NEW HOMES.

Large Party Leaves for the North-west to Locate.

Geo. Martin, of the Wm. H. Brown Land Co. and Thos. Jones, of the local firm of Geo. A. Robertson & Co. left this morning for Mott, North Dakota, with two special cars of home-seekers. One car was made up of Seymour, Edinburg, Flat Rock and Greenwood parties, going via Panhandle and the Monon Ry. The other car was made up of Little York and Scottsburg parties going via Salem and the Monon. The two special cars meet at Rosedale. From Chicago they have through sleepers right to Richardson, North Dakota.

Nearly all of these parties have previously bought and homesteaded in Hettinger Co., North Dakota. Those with the party from Seymour and vicinity were Nicholas Burkhardt, wife and daughter, Mrs. Chas. Rumph, Mrs. Chas. Finkle, Ash Gardner, John Nickolson, Frank Shuttles, William Matlock, Thomas Jones, and Geo. Martin.

Receiving Taxes.

The city treasurer is at his office every day now to receive the spring installment of taxes from the taxpayers. He is writing some receipts but could write more everyday if more people would come in to get them. It is a good plan to pay your taxes before the rush. Better be among the first than among those who are only just a step ahead of the delinquents.

Do you want eggs for hatching. Buff Rock and Buff Leghorn are not only great egg producers, but are beauties. Eggs \$1.00 per fifteen.

WESTON.

Mrs. J. E. Hopkins and daughter are visiting her son M. B. Hopkins and wife at Indianapolis.

School closed Friday with quite an interesting program.

Miss Clara Hargeshiner visited Carrie Hoffman Friday and attended school in the afternoon.

Willmer, Mort and Carrie Spall attended the last day of school here Friday.

Our farmers are sowing oats this week.

Miss Jessie Hopkins will leave for Valparaiso April 3 where she intends taking music.

Oliver Baker and Albert Hoffman were at Seymour Saturday and brought back some fine seed oats.

J. W. Hargeshiner will leave for Danville where he will attend school this spring.

It is reported that there will be a wedding soon.

Little Goldie Keller is able to be up again.

The examination for graduation was held at Lovett last Saturday but we have not yet learned how many tried the examination.

SPRING IN THE GARDEN

Set shrubs and vines as soon as the ground settles.

Be ready to jump right in and make the best use of every fine day.

Those choice seed potatoes may sprout too soon if not kept cool.

When warm enough to uncover the rosebushes, a little fine manure or fertilizer forked in around the roots will tickle them greatly.

For perfect roses prune in March. Cut back about one-third of last year's growth on hybrid perpetuals.

If you did not blanket the rhubarb with manure last fall, give it a nice top dressing of fine compost now and place half barrels over a few of the plants to hurry them along.

For the new potato Noroton Beauty it is claimed that it is "the earliest potato ever grown, being sixteen days earlier than the Old Early Rose, of which it is a lineal descendant, and the best all round potato in existence."

Use Prizetaker or any of the large globe kinds for the new onion culture. Sow in flats, hotbed or greenhouse and transplant to the open as soon as the ground is in good working condition.

Bear in mind that the new soil inoculation by artificial cultures is just as applicable to garden beans, peas and sweet potatoes as to field crops. Some wonderfully good things are already told about its work by those who have practiced it.

Onion seed cannot be sown too early. It will germinate and grow even in the wet and cold if the ground has been properly fitted. There's the rub. The soil cannot be made fine till it has dried out. Just here comes in the "new" onion culture, seeds sown under glass and plants set out when the soil is well prepared.

No better seed tester is needed than this: Place the seed between a fold of cotton flannel cloth and lay it on a plate. Moisten but do not saturate the cloth with water. Cover with another plate and keep at a temperature of about 70 degrees F. By the end of three days good seed should have germinated 90 per cent or more.

W. F. PETER DRUG CO. INTERESTED

Our Leading Druggists Have Combined with One Thousand Other Druggists who are Leaders of the Drug Business in the United States.

One thousand retail druggists who are the leaders of the drug trade of the United States and that means the world, rated by Bradstreet and Duns at twenty million dollars and whose retail business aggregates over seventy million dollars annual sales, have agreed to give their name, financial backing and endorsement to the guarantee that Rexall Mucu-Tone will cure any disease or trouble arising from catarrh or they will refund the money. The W. F. Peter Drug Co. say they are proud of their connection with the Rexall Remedies, particularly so of Mucu-Tone, and when asked why, stated that a remedy must be something out of the ordinary to get their backing. "It is not all profit," said Mr. Peter, "that leads us and our one thousand associates into endorsing this remedy, it is our years of experience with medicines and our knowledge of them that makes us believe that Rexall-Mucu-Tone is a bona fide discovery for the cure of all ailments due to catarrhal affection. We know that it is not a cure all, but a remedy built on scientific lines and not a patent medicine as each one of the thousand druggists know its formula and its value. It has one great additional value besides curing constitutional catarrh—that it is a system builder. No such tonic was ever before designated for the curing of inflammation of the mucous membrane—nor can it be improved on in the present age. Just stop and reason with yourself for one minute. We are doing business right here in your midst. Could we afford to offer our name and endorsement to Mucu-Tone as we do if we did not know that it was an honest medicine? Could we afford to agree as we do that we will refund every penny paid us for the medicine if it does not benefit?"

"All we ask is the customer's word and the empty bottles and we hand the money back. No signed certificate. We believe the public, especially the sick, are honest. Certainly every sick person who suffers from any of the following ailments should take advantage of our offer today. Rexall Mucu-Tone cures catarrh of the nose, throat, stomach, intestines, liver, kidneys or bladder, and any who are convalescing from sickness of any kind should take advantage of our offer and purchase what we recommend as the best tonic ever sold in a drug store. We have a large trial-size for fifty cents and we guarantee it or refund your money."

Report Promptly.

When a fire is discovered some one
in that locality should at once notify
the telephone exchange where the fire
is. Then those ringing in could get
the information they are sure to in-
quire for. Today there were about
300 inquiries of the exchange within
fifteen minutes as to where the fire was.
But no one had informed the tele-
phone exchange so the operators had
to reply to each one that they did not
know, and how could they know un-
less some one had reported?

Opera House under the auspices of the
K. of P. Social Club. This club was
here on their spring tour last year and
presented a fine program. They ap-

Skeckell were encored to an echo.

The program for the entertainment
tonight is as follows:

Long Afflicted.

Miss Flora B. Staples made connec-
tion here today from Indianapolis to
her home at Elora, Indiana. She
has been almost entirely helpless all
her life. She is 38 years old and has
never been able to stand or sit alone
since 1881. Up to this time she could
sit in an arm chair, but since lies con-
tinually on her right side. Her afflic-
tion is nervous trouble, having no
control whatever over that system.

She reads and talks intelligently and
her favorite book is the Bible. She
makes some little articles and sells
these, thus being able to do quite an
amount of missionary work in which
she delights. She lies on a wheel cot
and is in the care of Mrs. A. E. Staples
who has quite a number of friends in
this city.
